

Sparkling Spray Shower Filter

Featuring KDF® - "today's precious metal for water purification"

KDF is considered to be the most effective media known for controlling algae, bacteria, fungus, mold, parasites, viruses, and other pathogens; effectively neutralizes harmful inorganic chemicals like chlorine, and its many harmful chemical derivatives; and removes heavy metals.

The Sparkling Spray:

- Removes up to 99% of harmful chlorine
- Offers contemporary lightweight styling, and trouble-free technology
- Offers flow-through design which maximizes water contact with KDF media
- Maintains constant water flow with standard 2.5 gpm shower heads

In head-to-head testing, the Sparkling Spray met or exceeded the performance of other shower filters, some costing substantially more. It provides approximately 850 showers - about two years of clean, healthy, refreshing, safe, chlorine-free showers. This quality shower filter is a great health and beauty accessory that can be effortlessly enjoyed every day. Cosmotology Today magazine recently described them as "One of the most beneficial health and beauty products ever developed."

Bathing, showering and shampooing in conditioned, chlorine-free water from the Sparkling Spray can provide the following benefits:

- Stops stinging, burning and itching eyes
- Requires less shampoo and soap, saving you money
- Prevents mildew and mold from forming in shower and tub
- Leaves skin smoother, and hair cleaner, softer and more manageable
- Relieves rashes, dryness, dandruff and irritations caused by chlorine
- Reduces sneezing and coughing caused by inhaling chloroform vapors
